Why **Visual Design** Matters  
for **amazon** Listings

**Tips 1**  
Upgrade Your Main Image  
fix weak CTR fast.

**Tips 2**  
Build Scroll-Stopping A+ Content  
boost conversion with clarity.

**Tips 3**  
Follow Amazon's Image Guidelines  
fix suppressed offers fast.

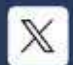

One **broken visual** can **break** your sales.  
Don't let poor design cost you.

We're offering a **FREE**  
10-second **demo video**  
to 5 SaaS brands  
**this month.**

Message us **"DEMO"** to claim yours  
before all spots are filled.

**Lever 2**  
Don't Rely on One Channel

**Scaling on one platform  
is a recipe for disaster.**  
*What happens when that  
channel tanks?*

**Instead this:**

Expand to Amazon or Shopify  
Add Meta, Google, TikTok  
Build email + influencer funnels

**Tip 3**  
Show the behind-the-scenes

**People LOVE  
behind-the-scenes  
content.**

**Show your audience**

How you solved a real customer pain  
What went into building a new feature  
A sneak peek at your roadmap or product workshop

Behind-the-scenes = Behind-the-scenes

That's what builds trust.

When they  
came to us,  
their store was  
**stuck...**

Minimal Customer Retention  
Inefficient Traffic Growth  
Low Conversion Rate

**Show their  
ideal future**

*How will their  
life improve?*

Focus on outcomes,  
not features.

Sell the transformation,  
not the tool.
