## Recent Projects

- HelloSuperStar – [ <https://hellosuperstars.com> ] Contributed to the project by adding features to improve user interaction. Utilized ReactJS for the frontend and Laravel for the backend, ensuring a responsive UI and seamless communication between the two for enhanced functionality and a smooth user experience.
- The Grant Portal – [ <https://github.com/EnamulHossain/TGP.git> ] – Live - [ <https://thegrantportal.com> ]  
Designed and developed a grant alert website using PHP Laravel, JavaScript, AJAX, Tailwind CSS, and MySQL. The project focused on providing users with timely notifications about available grants, enhancing user engagement with real-time alerts, and implementing robust data management for grant listings. Key features included user authentication, grant search functionality, and a responsive design for optimal performance across devices.
- Ecommerce – [ <https://github.com/EnamulHossain/E-com-And-Booking> ] –  
Designed and developed an e-commerce website, optimizing user experience, implementing secure payment processing, and integrating third-party logistics for efficient order management.
