PROFESSIONAL SUMMARY

Computer Science graduate with one year of professional experience in Full Stack Web Development. Specialized in the MERN stack, with practical expertise in AI integration and cloud deployment. Passionate about building scalable, data-driven, and user-focused web applications.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Apr 2025 - Present

MarifahSol

- Developed Bus Service CRM & Analytics Dashboard for route tracking and performance reporting
- Created an AI Chatbot using RAG technology to generate responses from the latest company data
- Built a Service Providing Platform with order management, chat, payments, and admin controls
- Designed Admin Dashboard for real-time insights and user management
- Managed cloud deployment & CI/CD pipelines for scalable production environments

Web Developer

Jan 2025 - Apr 2025

DigiTenic

- Built a Task Management System with advanced filtering and authentication
- Developed a Complete E-commerce Platform with cart, checkout, and order processing
- Implemented responsive UI components and optimized performance for production use

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux Toolkit, Material UI, Tailwind CSS, Bootstrap, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, WebSockets, WebHooks, Python

Databases: MongoDB, MySQL, PostgreSQL

AI & ML Tools: OpenAI API, RAG, ChatGPT, Hugging Face

Deployment: AWS (EC2, S3), Render, Vercel, Netlify

Utilities & Tools: Git, GitHub, Swagger, Postman, JWT, OAuth, Stripe, Cloudinary, Notion, Jira, Docker, CI/CD

Practices: Agile Development, Code Reviews, API Documentation, Problem Solving

EDUCATION

Bachelor of Science in Computer Science

Mar 2021 - Dec 2024

Sukkur IBA University

Relevant Coursework: Object-Oriented Programming, Data Structures, Database Management System, Machine Learning, Web Engineering, Enterprise Application Development, Mobile App Development

KEY PROJECTS

Freelance Marketplace for Physical Tasks — *MERN Stack*

Platform with task posting, bidding system, service posting, order placing, Communication, user authentication, payment, and admin portal

Book Review Web Application — *MERN Stack*

Full-featured app for writing and sharing book reviews with user profiles and rating systems

Nexus Tasks — *MongoDB, Express.js, Node.js*

Task management application with JWT authentication, real-time updates, and advanced filtering

BounceBack Blog Platform — *Express.js, Node.js, MongoDB*

Backend system with JWT authentication, content management, and RESTful API architecture

Pharmacy Management System — *Java (Swing), MySQL*

Desktop application for inventory management and sales tracking with reporting features

CERTIFICATIONS

JavaScript Developer Specialization - Scrimba (Coursera)

Developing Back-End Apps with Node.js and Express - IBM (Coursera)

React Basics - Meta (Coursera)

Python for Data Science, AI & Development - IBM (Coursera)

ACHIEVEMENTS

OGDCL Scholarship Recipient - Awarded fully funded 4-year bachelor's program scholarship

Professional Development - 1 year hands-on experience in production-ready applications
