ABOUT ME

I am a dedicated Laravel developer with 2 years of experience building web applications, APIs, and integrating third-party services. Skilled in PHP, MySQL, PostgreSQL JavaScript, and modern web development practices. Adept at delivering clean, maintainable code and collaborating in team environments to meet project goals.

SKILLS

Backend: Laravel, PHP, RESTful APIs, MySQL, PostgreSQL

Frontend: JavaScript, jQuery, Ajax, Bootstrap, HTML, CSS

Tools & Platforms: Git, Docker, Apache, Composer, Linux

Other: OOP, MVC Architecture, Test-Driven Development, QC, Agile, Scrum

EXPERIENCE

August 2022 - Present

Software Engineer
Business Accelerate BD Ltd

Developed and maintained web applications using Laravel framework for banking, training and internal management systems.

Optimized database queries and improved application performance.

Built reusable components, services to streamline future development projects.

Worked with the team in an Agile environment, contributing to sprints and code reviews.

Fixed bugs, enhanced existing features, and developed new modules based on client feedback

Wrote clear, concise code with an emphasis on best practices and maintainability
